## WJC Academic Program

WJC is a short-term study abroad program designed to provide a unique educational experience focusing on Japanese culture. Students have the choice to attend the program either for one semester or for a full year. The curriculum for the Fall Semester (September-February) focuses more on Japanese contemporary culture, while the Spring Semester (April-August) offers more subjects relating to Japanese traditional culture. Japanese language classes are available at various levels and students are able to take classes depending on their level.

Various excursions and events such as field-study trips, special lectures by guest speakers, and symposia are organized. The home visit program to local Japanese families and the Japanese student "buddy" program (JD-Mates) provide WJC students with good opportunities to socialize with students and residents of Fukuoka.

WJC grants a scholarship to exchange students from our partner universities, based on each university's exchange agreement.
