

Course Code : SLS 3099	
Course Title : Dissertation (Part I)	
No. of Credits : 3	
Pre-requisites (if any): None	
Compulsory/Optional : Compulsory	
<p>Aim(s):</p> <p>The Part I of the Dissertation Course aims to provide an opportunity for students to develop research skills in a chosen field and ability to identify research problems/ideas and write a research proposal. The research work of the students will be supervised.</p>	
<p>Intended Learning Outcomes:</p> <p>Upon completion of the course, the students will be able to</p> <ul style="list-style-type: none"> Show theoretical and practical professional specialisation within the chosen field including understanding of the current research questions Explain scholarly/scientific literature in the chosen field Review and summarise scholarly/scientific literature in the chosen field Write a standard research proposal 	
Time Allocation (Hours): Supervised Independent Research: 300	
<p>Course Description:</p> <p>The undergraduate thesis project is an individual study that must include hypothesis testing that will substantiate new data. The undergraduate thesis project includes search, studies and summary of scientific literature, practical work in the field of specialization, compilation and critical analysis of the results, and oral and written presentation. The undergraduate thesis project is mastered under individual supervision. The supervision includes how to perform a scientific study and how to orally and in writing present gathered data in good scientific manner. The student will develop a standard research proposal under the guidance of supervisors during the course. Dissertation Writing Guidelines will be prepared and adopted.</p>
