Membership Open...

Key decisions were made during the meeting to shape an inclusive and dynamic alumni body. The draft constitution was openly reviewed and modified based on the comments given by the members.

Membership was officially opened to all Geography graduates; internal, external, diploma, MA, MPhil and PhD alumni as well as current and former academic staff. The membership drive is set to launch in July, with affordable annual and lifetime options.

Future Direction

The AGM emphasized inclusivity, with plans to provide all official communications and forms in Sinhala, Tamil, and English. Future programs will include workshops, field trips, community outreach, and collaborative events with the Geography Society.

Efforts are also underway to enhance visibility and engagement through social media, branded promotional items, and a year-end get-together in December 2025. With a clear roadmap and enthusiastic participation, the association is poised to become a vibrant network of connected Geographers making meaningful impact.

Stay tuned—Pera Geo Alumni is just getting started!
