Scholarships

For Incoming Full-time International Graduate Students

In this brochure, you will find facts & figures of UCAS, general information & application guide for scholarship programs.

CHARTING SUSTAINABLE PROGRESS

Founded in 1978 as the Graduate School of Chinese Academy of Sciences, UCAS has been driving research and educational success, drawing strength from its close integration with CAS institutes.

UCAS STUDENTS HAVE ACCESS TO RICH RESEARCH AND TEACHING RESOURCES.

Nationwide coverage

Well-developed research infrastructure

23 large-scale scientific facilities

- | | |
|--|--|
| 1 national laboratory | 17 National Engineering Technology Research Centres |
| 2 national research centres | |
| 9 National Engineering Research Centres | |
| 15 National Engineering Research Laboratories | 77 state key laboratories |
| | 189 CAS key laboratories |

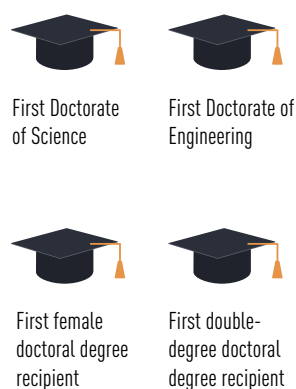

Strong faculty teams

UCAS has more than **3,000** dedicated faculty members, including **161** members of CAS or the Chinese Academy of Engineering, **491** recipients of the National Science Fund for Distinguished Young Scholars. Also UCAS has **11,257** supervisors from its network of CAS institutes.

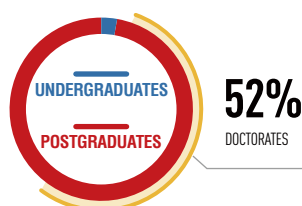

UCAS EXCELS IN GRADUATE EDUCATION AND IS EXPANDING ITS UNDERGRADUATE PROGRAMMES.

Many firsts in national graduate education

Produced **171,526** postgraduates in total, of which **83,561** conferred doctoral degrees. Around a quarter of recipients of the National Science Fund for Distinguished Young Scholars are UCAS alumni

Currently enrolls

1,620 undergraduates and **51,700** postgraduates, the highest in China.

1,734 international students from **96** countries, including **1,055** doctoral students, also the highest number among Chinese universities

ACADEMIC SUCCESS

Ranked **67th** globally, and **1st** in China, according to Essential Science Indicators (ESI) data released in July 2020, with **18** out of the 22 research fields classified by ESI ranking among the global top 1%, among which, **7** are ranked among the global top 1%. **TWO** fields, chemistry and materials science, are among the top ten thousand.

GENERAL INFORMATION OF SCHOLARSHIPS

UCAS provides over 160 doctoral programs and over 40 master's programs instructed in English and over 200 master's programs instructed in Chinese under the support of different scholarships.

The ANSO Scholarship for Young Talents

The scholarship was formally launched in 2019 with the goal of training and cultivation of young scientists from all over the world. It supports **145** master's students and **190** doctoral students every year to pursue postgraduate education at UCAS.

Chinese Government Scholarship

Entrusted by the Ministry of Education of the People's Republic of China, UCAS recruits outstanding young graduate students from all over the world and provide them full scholarships.

UCAS Scholarship for International Students

UCAS Scholarship consists of two types: the full and the partial. The full scholarship provides tuition waiver, monthly stipend, basic accommodation and medical insurance; while the partial scholarship covers some items of the Full.

Other Resources of Financial Support

UCAS also accepts applicants with scholarships provided by foreign governments, higher education institutions, international organizations or with self-support.
